[Strippers Vs Werewolves Full Movie Hindi Download](#)

When werewolf chief Jack Ferris is accidentally killed in a strip club, the girls who work there have until the next full moon before his bloodthirsty wolfpack seek murderous retribution. There is an art to making bad horror movies that are a pleasure to watch due to their badness, but Strippers vs Werewolves is simply bad. Howlingly bad, in fact. OK, it is meant to be a horror-comedy and not to be taken seriously, but that (as John Landis masterfully demonstrated) is also an art, and this film misses the canvas by miles. It is not funny, scary or effective in any way and is generally an amateur affair. The tricky split screen and use of strange animated stills is also very annoying and totally unnecessary. Added to this, the make-up effects are rudimentary and make the villains of the piece look less like werewolves and more like 19th century pub owners with muttonchop sideburns and big ears, while the much-heralded 'strippers' don't actually strip (I've seen Emmerdale episodes that are more daring). On a positive note (yes, there are one or two positive notes - literally one or two), it's always great to see the marvellous Sarah Douglas on screen and Alan Ford is a class act (now Cockneys vs Zombies is a good comedy-horror), but they deserve better than this shaggy-dog story. I loved this film not just that its British but it had all the soaps intermingled, Eastenders, Emmerdale and Hollyoaks.

It starts with Martin Kemp (Steve from Eastenders) watching Adele Silva (Kelly from Emmerdale) giving him a lap dance, however he starts to change into a werewolf as he gets aroused and the poor girl stabs him in the eye with a silver pen (nice one).

The owner of the bar comes through and sees the mess and tells one of her heavies to get rid of him, meanwhile somewhere in London a group of men who are werewolves get suspicious of their mate who by now is missing.

Adele Silva's character is going out with one of these men and unbeknown to her is a werewolf! The rest of the film is the girls in the club having to fight these wolves off and kill them.

Its a good watch and it may not be a US blockbuster but I think its great with great music score.
